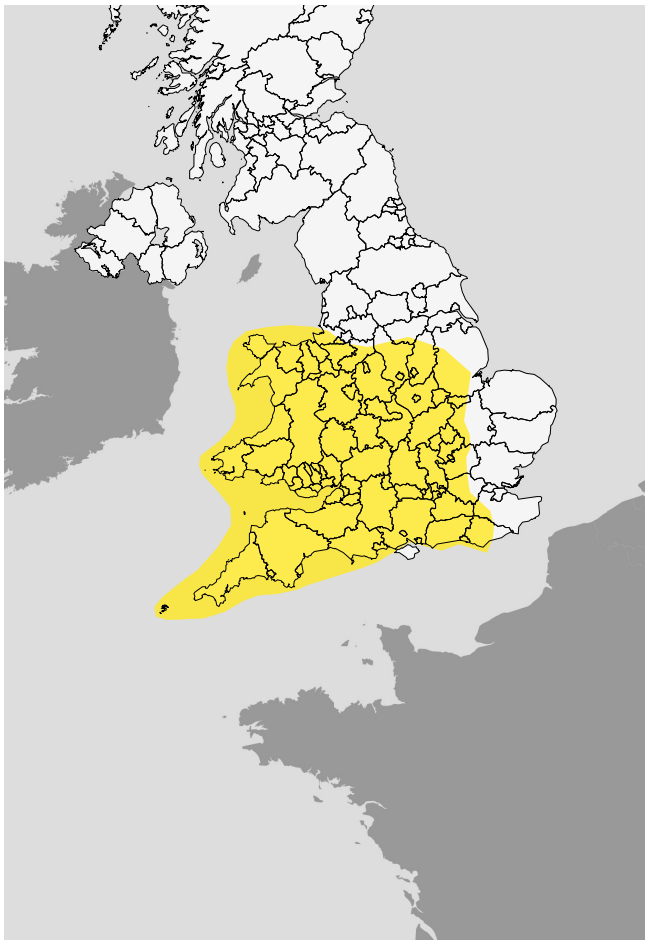
Yellow warning
Thunderstorm

Between
01:00 Sat 21 Sep 2024 and
23:59 Sat 21 Sep 2024



Whilst some places will remain dry, thunderstorms and heavy showers could cause some disruption on Saturday in a few places.

What to expect

- There is a small chance that homes and businesses could be flooded quickly, with damage to some buildings from floodwater, lightning strikes, hail or strong winds
- There is a small chance of fast flowing or deep floodwater causing danger to life
- Where flooding or lightning strikes occur, there is a chance of delays and some cancellations to train and bus services
- Spray and sudden flooding could lead to difficult driving conditions and some road closures
- There is a small chance that some communities become cut off by flooded roads
- There is a slight chance that power cuts could occur and other services to some homes and businesses could be lost

Yellow warning
Thunderstorm

Between
01:00 Sat 21 Sep 2024 and
23:59 Sat 21 Sep 2024

Further details

Whilst there is some uncertainty in the details , scattered showers and thunderstorms will develop across parts of southeast England over the next few hours and spread northwestwards through Saturday morning before showers develop more widely later in the day. While much of the time it will be dry, and not all places will see these, where they do occur 20-40 mm could fall in less than an hour, with a small chance of isolated accumulations of 50-70 mm over the course of a few hours. In addition, hail and frequent lightning may accompany the most intense storms, especially during Saturday afternoon and evening in parts of the Midlands, western England and east Wales.

What should I do?

Consider if your location is at risk of flash flooding. If so, consider preparing a flood plan and an emergency flood kit.

Prepare to protect your property and people from injury. Before gusty winds arrive, check to ensure moveable objects or temporary structures are well secured. Items include; bins, garden furniture, trampolines, tents, gazebos, sheds, and fences.

Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

If you find yourself outside and hear thunder, protect yourself by finding a safe enclosed shelter (such as a car).

Very low likelihood of medium impacts

Yellow warning
Thunderstorm

Between
01:00 Sat 21 Sep 2024 and
23:59 Sat 21 Sep 2024

Further Details (continued)

Do not shelter under or near trees, or other structures which may be struck by lightning. If you are on an elevated area move to lower ground.

Be prepared for weather warnings to change quickly: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Warning updated to extend it further north and east, and to increase the likelihood to low. The further details have also been updated to reflect latest thoughts.
